

Ambulatory Care Pavilion Construction

Parking Impact: FAQs

As construction on our Ambulatory Care Pavilion continues, necessary changes to parking, walkways and entrances are taking place to ensure your safety and convenience.

What is happening?

Visitor Parking Lot 1 is temporarily closing for an expansion project that will result in more parking in advance of the opening of our Ambulatory Care Pavilion. Pedestrian walkways on the east side of campus between Taylor Pavilion and the Medical Center will also be closed to ensure the safety of our campus community.

When is it happening?

Starting: Monday, June 25; 4 p.m.

Ending: Approximately Late Fall 2018

Who will this project impact?

Patients and visitors that utilize Visitor Parking Lot 1 to access the Medical Center, Taylor Pavilion and Physical Medicine and Rehabilitation Department will be impacted.

Medical Center: Patients/visitors to the Medical Center may park in Visitor Lot 2 or use valet at the main entrance. Overflow parking is available in Visitor Lots 4 or 16. Signage will be posted to provide direction from Lots 4 and 16 to the closest building entrance. The Security Information Desk will provide internal directions once you are in the building.

Physical Medicine & Rehabilitation

Department: Patients/visitors to our Physical Medicine and Rehabilitation Department should park in Lot 10 and enter through Taylor Pavilion's c-wing entrance on the north west side of the building.

Taylor Pavilion: Guests and visitors to administrative offices are asked to park in Lot 10 and enter the Taylor Pavilion North entrance. Once inside, the Security Information Desk will provide internal directions to the elevators. Existing wayfinding will provide direction to offices.
